

## REMARKS

Claims 1-37 and 57-62 were presented for examination and were pending in this application. In an Official Action dated March 17, 2006, claims 1-37 and 57-62 were rejected under 35 U.S.C. § 103(a). Applicants respectfully traverse. Applicants thank Examiner for examination of the claims pending in this application and addresses Examiner's comments below.

Applicants herein amend claims 1-37 and 57-61. These changes are believed not to introduce new matter, and their entry is respectfully requested. Reconsideration of the application in view of the above Amendments and the following Remarks is respectfully requested.

The Examiner and the undersigned attorney held a telephone interview on June 2, 2006, and the Examiner left a voicemail message for the undersigned attorney on June 9, 2006. The substance of these communications is set forth herein.

The Examiner and the undersigned attorney discussed independent claims 1 and 57. In particular, the Examiner and the undersigned attorney discussed that amending claims 1 and 57 by adding the word "printer" and deleting the word "system", as well as clarifying the description of the "media processing system" as shown in the above amendments to claims 1 and 57, would clarify the meaning of claims 1 and 57 and overcome the cited art. Applicants have amended claims 1 and 57 to add these clarifications, and believe that with these amendments the claims are now in a condition for allowance.

The claims not specifically mentioned above incorporate the features of their respective base claims and are patentable for at least the same reasons. Applicants respectfully submit that the pending claims are now allowable over the cited art of record and request that the Examiner allow this case. The Examiner is invited to contact the undersigned in order to advance the prosecution of this application.

Respectfully submitted,  
PETER E. HART, ET AL.
